Professional Summary

Frontend Developer with practical experience building modern, responsive web interfaces using Vue.js and React, and integrating backend services via Node.js and REST APIs. Currently working as a Frontend Mentor, teaching JavaScript and UI development to students. Strong foundation in full-stack development, clean code practices, and collaborative workflows.

Work Experience

Tengdosh Ustoz Platform — Tashkent

Frontend Mentor | 2025 – Present

- Deliver structured lessons on JavaScript and frontend development to students.
- Review student code and provide actionable feedback on projects.
- Guide learners through building real-world UI components and mini-projects.

Freelance & Educational Projects — Tashkent

Frontend & Backend Developer | 2024 – Present

- Built responsive user interfaces with React and Vue 3, improving UX across multiple projects.
 - Developed RESTful backend APIs using Node.js and Express with MongoDB databases.
 - Implemented JWT-based authentication for secure user management.
 - Integrated frontend and backend layers seamlessly using Axios.
-

Projects

Travel Tour Website

Frontend Developer | 2026 | github.com/ibrohim088/travel_tour

- Developed a fully responsive travel agency landing page as a first production task.
- Built UI components with clean HTML/CSS and JavaScript, focusing on cross-device compatibility.

LMS Backend

Backend Developer | 2025 | github.com/ibrohim088/LMS_back

- Built a Learning Management System backend API with Node.js, Express, and MongoDB.
- Implemented CRUD operations for courses, users, and progress tracking.

Team Collaboration Project

Frontend Developer | 2024 – 2025

- Collaborated with teammates to design UI layouts and component architecture.
 - Managed version control and branch workflows using Git and GitHub.
-
